Re: Proposed site for new Animal Shelter location

At the April 14, 2016 City Commission meeting, City staff was asked to bring recommendations regarding proposed sites for a new Animal Shelter facility. We have two locations available which are suitable:

- The first site is on property located north of the Police Station on Highway 59. However, this site is space prohibitive and would limit any further expansion for the Police Department and the Animal Shelter facility.
- The second site is on property located on Highway 43 North. This site provides a foliage barrier and direct Highway 43 access. This property also provides several other advantages, such as a private drive, sound suppression, and room for future expansion.

Aerial maps of both locations are attached. It is important to note that both properties would require rezoning to be used as the location of an Animal Shelter facility.

If the City Commission prefers to use property that is currently owned by the City, it is my recommendation that we utilize the property located on Highway 43 North as the location of a new Animal Shelter facility.

Location: HWY 59 N

Location: HWY 43 N
