

Marshall Police Department

Jesus Eddie Campa
Chief of Police

Date: **10/15/2015**

To: **LISA AGNOR –CITY MANAGER**

From: **CHIEF JESUS E. CAMPA**

***Re:* Purchase of Community Patrol
Cruiser (CPC)**

City Manager Lisa Agnor,

The police department would like to purchase a CPC for use in patrolling areas not easily accessible by normal patrol cars such as parade routes, runs, Fall Festival, Wonderland of Lights, National Night Out, Fire Ant Festival, Thursday Night Jam Nights, schools, universities, and hospitals.

This vehicle would be used for traffic control, pedestrian safety and general patrol in areas such as football games, festivals, etc. The vehicle is designed for police use, and will be equipped with emergency lighting and a siren. We would like to use red light camera funds for this purchase. We feel that it meets the standard for use of these funds as it will be used in a traffic control and traffic safety function.

We have discussed the purchase with City Attorney Todd Fitts and he has no issues with the funding source.

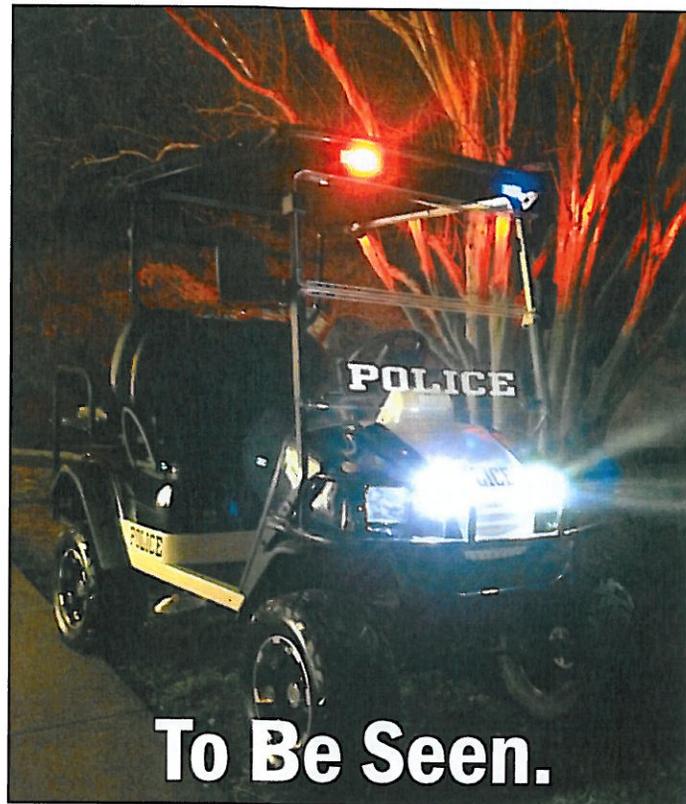

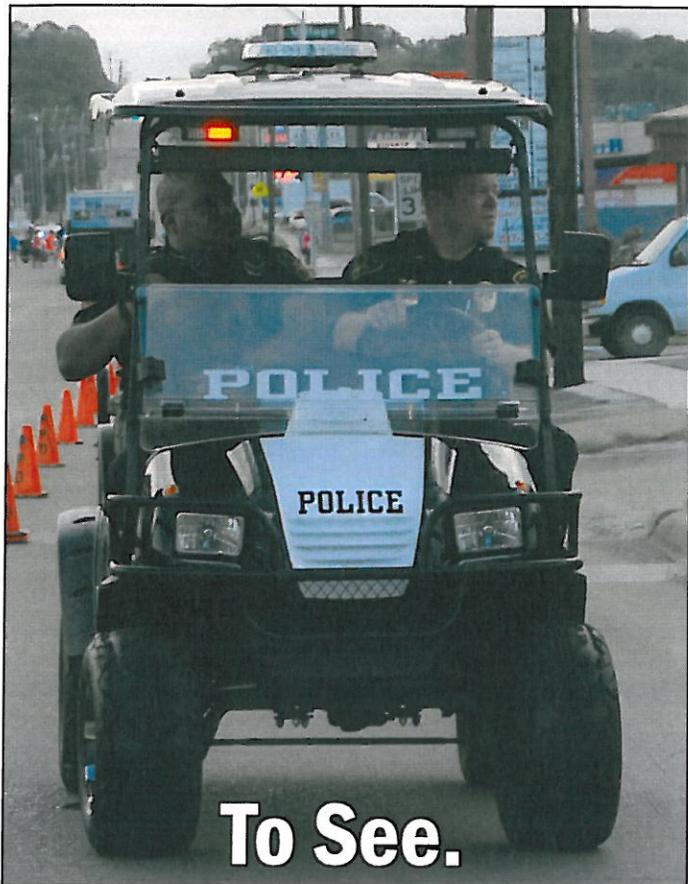

Respectfully,

Chief Jesus E. Campa

Fold Down Rear Seat to Cargo Flatbed	Posi-Stop Brake System
23-11 x 10 All-Terrain Non-Directional 6-Ply Tires	Plastic Battery Trays Prevent Leakage
Speedometer - Odometer	Dash Turn Signal Indicator - Reverse Indicator
Dual Locking Glove Box Doors	Sunbrella Inclement Weather Enclosure

Why AC Electrical System? Compared to DC Electrical System (Standard in All Others)

A standard DC electrical system uses a DC motor with an armature rotating on carbon brushes. The power transferred is only relative to the efficiency of this connection. On an AC system, there are no brushes. All power from the battery pack is converted to AC and transferred inductively. There is no limit except by the size of the power transfer and motor size. The power is converted from the motor to 3-Phase creating exceptional power with zero energy loss. AC power gives longer run times, more power and no heat build-up under loads. Superior. Innovative.

QTY	DESCRIPTION	BUYBOARD
1	2015 CPC - 48V AC 3-PHASE POWER	
1	Standard: Dash Mounted Speedometer, Odometer, Turn Signal Indicator, Reverse Indicator	
SAFETY		
1	Standard: Dual Rear Posi-Stop Braking System with Foot Operated Parking Brake	
1	Standard: Self-Compensating Rack/Pinion Steering for Smooth Driving	
1	Standard: Regenerative Braking through Electric Motor Prevents Free-Wheeling and Charges Batteries	
1	Standard: Rear Seat Equipped with Safety Grab Bar	
COLORS		
1	Standard: Polar White on Jet Black	
1	Standard Seat Color: BLACK - Rear Seat Folds Down to Cargo Flatbed with Diamond Aluminum Deck	
TIRES		
1	Standard: 23-11 x 10 6-Ply All Trail Tires on Steel Wheels	
1	Standard: 10" Chrome Wheel Covers	
BRAKES		
1	Standard: Dual Posi-Stop Brake System	
1	Standard: Foot Operated Parking Brake	

BATTERIES	
1	Standard: Eight Trojan T-105 6 Volt Heavy-Duty Deep Cycle Batteries
1	Standard: Battery Fuel Gauge
1	Standard: Built-On Automatic Delta-Q Charger - High Frequency Smart Charger
1	Standard: Battery Maintenance System -A Battery Maintenance System is an option that can double your battery life. With a simple single point to completely fill your batteries. Complete the maintenance task in about a minute instead of 30 minutes...and extend the life of your battery pack
LIGHTS	
1	Standard: Deluxe Lights: Headlights, Taillights, Stop Lights, Directional Signals
1	Standard: DOT Horn
1	Standard: 48 Volt DC to 12 Volt DC B104 Converter - Industrial Duty - 20 Amp
1	Standard: 12-Volt Accessory Outlet
WEATHER PROTECTION	
1	Standard: Sun Top Canopy - Covers Driver/Passenger Compartment - Color is same as body
1	Standard: Impact Modified Hard Coat Fold-Down Windshield
1	Standard: Heavy-Duty Sunbrella Canvas Inclement Weather Enclosure; Track Style for Easy On/Off; BLACK
MIRRORS	
1	Standard: Driver Side and Passenger Side View
POLICE PACKAGE	
1	STANDARD: White Accents on Black Body
1	STANDARD: "POLICE" Lettering on Each Side Panel; "POLICE" Lettering Across Bottom of Windshield; "POLICE" Lettering on Front Cowl
1	STANDARD: (2) Bright White LED Wig-Wags on Front Body; (2) Red/Blue LED Strobe on Front; (2) Red/Blue LED Strobe on Rear; 360 degree Red/Blue LED Light Bar on Roof
PERFORMANCE	
1	Standard: Heavy-Duty All-Terrain Suspension
1	Standard: Self Compensating Rack/Pinion Steering
OTHER ENHANCEMENTS
