

CITY OF MARSHALL

COMMISSION AGENDA INFORMATION SHEET:

MEETING DATE: July 09, 2015

PROJECT: Report regarding current status of the 2015 water and sewer improvements and extensions.
(Public Services Director)

DESCRIPTION:

Commissioner Boersma requested the above noted report, the resulting report is noted herein below. The request was for an update of water and sewer improvements completed/in process/planned for 2015.

Water Projects (2015 Budget is \$125,750):

- (\$15,000 in parts only) Extension of 6" water line on Lancaster Street, from Lane Lewis Street eastward 1,000 ft. to tie into existing 6" water line; includes installation of two new fire hydrants. This work is being done by city staff and should be completed in 30 days.
- (\$92,000 outside parts and labor) Installation of new 6" water line from Lancaster, northward to Highway 43, to replace existing 2" water line and tie into new city constructed water line on Lancaster Street. This project needs to be done by contractor because our city crews need to be rededicated to line repairs as soon as possible.
- (\$20,000) Planned installation of two 10" inserta-gate valves on East Street for flow control.

Sewer Projects (2015 Budget is \$126,750):

- (\$4,500 in parts only) Replaced deficient manhole and installed 100 ft of new sewer line off South Washington, behind the old Marshall Hardware Store; completed by city staff.
- (\$7,500 in parts only) Replaced deficient manhole and associated connections on Chestnut Street; completed by city staff.
- (\$52,000 outside parts and labor) Install new sewer line in St Francis Street from Brook Street, eastward to deadend. This project needs to be done by contractor because our city crews need to be rededicated to line repairs and maintenance as soon as possible.
- (\$60,000 outside parts and labor) Rehab East End Sewer Main south of Elysian Fields Avenue and east of Highway 59 to increase flow capability.

COST:

Water Projects - \$127,000

Sewer Projects - \$124,000
