Re: Report on the status of the Memorial City Hall renovation project

Demolition continues on the Memorial City Hall renovation project. We have removed old plaster and sandblasted the walls on three floors to expose original brick walls. We have also removed a portion of the tile ceiling in the auditorium. All interior walls in offices have been removed from the top three floors.

Downstairs, we have started saw cuts for plumbing and cleaned out Harrison County Historical Museum items located in renovation areas. The elevator shaft is scheduled for demolition, and saw cuts and wall removal is scheduled soon on the west side of the building in the basement area.
