

## CITY OF MARSHALL

### COMMISSION AGENDA INFORMATION SHEET:

**MEETING DATE:** September 10, 2015

**PROJECT:** Report regarding the City of Marshall's engine brake ordinance. (Public Services Director)

**DESCRIPTION:** Commissioner Mitchell requested a report on the status of signage installations in accordance with our Engine Brake Ordinance. This was mentioned at a previous meeting, so we went ahead and contacted our regional Texas Department of Transportation (TxDOT) office in Atlanta, Texas, asking if the signage cost and installation was our responsibility, or TxDOT. If it is our responsibility, we will be required to make application for approximately separate 10 locations.

As of Friday, we have not heard back from TxDOT, mainly because the folks we need to talk with have been in Austin. We feel certain we will hear back before the City Commission meeting on September 10<sup>th</sup>.

**COST:**

Too early to determine
