

**NEWS RELEASE - CITY OF MARSHALL, TEXAS**  
**MARSHALL PUBLIC WORKS DEPARTMENT - STREET DIVISION**  
**NOVEMBER 05, 2014**

**Re: FOR IMMEDIATE RELEASE**

**THE CITY OF MARSHALL IS HEREBY NOTIFYING AFFECTED BUSINESSES AND RESIDENTS ON NORTH WASHINGTON, FROM GRAND AVENUE, SOUTHWARD TO THE SQUARE THAT STRIPING TECHNOLOGY OF TYLER, TX WILL BE RE-STRIPING NORTH WASHINGTON THIS SUNDAY, NOVEMBER 9th AND NO ON-STREET PARKING WILL BE ALLOWED DURING THE STRIPING OPERATION.**

**NO on-street parking will be allowed on Sunday November 9<sup>th</sup> on the following street.**

**"No" on-street parking and limited travel access area:**

- North Washington - from Grand Avenue, southward to the Square.**

The current weather forecast is favorable for this coming Sunday, so the re-striping of North Washington should be finished on Sunday. The contractor will make every effort possible to accommodate emergency access needs and limit impact to residents and businesses in the affected area.

The new 8'-6" standard width parking striping plan includes resetting the parking angle to 30 degrees, instead of 35 degrees, to allow for a little wider travel lanes and also allows vehicles to back up with a better view.

We offer a sincere apology for any street access disruption this Sunday, during this re-striping operation, but the process is being performed on Sunday to reduce interruptions as much as possible.
