

Fleece Pet Blankets for Marshall Animal Shelter

Supplies provided:

- 1 yard or ½ yard of fleece
- Scissors
- Ruler

Instructions:

1. Around the edge of the blanket, cut 2-inch-wide strips. This is an approximate measurement; no need to be purr-fect!

2. Cut the corners out and discard.

3. Go around again and cut each of the 2-inch-wide strips in half. This is to guarantee each strip will have a match.

4. Next, tie each pair of strips into double knots. If the blanket is looking bunched, don't fret. After everything is double knotted, pull gently to get the sides straight again.

5. Now you have a blanket for a needy adoptable pet! Fold the blanket into the original bag to return to the library. Blankets will be delivered to the new shelter.
