

Dog Tug Toy for the Marshall Animal Shelter

Supplies:

4 lengths off fleece:
2" wide and 45" long
Scissors

Instructions:

- Gather the ends and tie a regular overhand knot at one end. Leave 5 inches or so of fleece. Pull this knot very tight.
- Next, open your fleece strips into a plus sign.
- Follow the steps on the next page. Keep the colors in the same order before each knot! Make sure you tie each square knot very tightly. Visit <https://youtu.be/64FRMoW-XsQ> for an excellent step-by-step video.
- When there is only about 5 inches of fleece, tie another overhand knot. Tighten it and trim the fleece ends evenly. Cut each end in two for more volume. Now you're going to make a dog super happy!

Square No-Sew Dog Tug Toy
