

Project Startup Notice: Watermain Replacement Program

Project: City of Marshall Watermain Replacement\Upgrade\New Installation Program

Description: This is the City's first year of significant watermain replacement\upgrade\new installations that is connected to an overall water distribution system upgrade that will progress over the course of 10 years to replace and upgrade a number of 2" watermains, aging watermains throughout the system as well as install new watermains and hydrants where there currently aren't any. The list below provides the location, approximate start date and a brief description of the work for the year 2022.

Project Locations:

1. Wilson Dr.\Wesson St. Area – Phase 1

a) Project Description:

This project consists of the replacement of existing 2" watermain with new 6" watermain and hydrants. The work will consist of replacing the 2" watermain from University along Wilson St and tie in to an existing 6" watermain located at the intersection of Wesson. Crews will also be installing a new 6" watermain from the intersection of Wilson St and Wesson St to the intersection of Wesson St and Wiley Ave.

b) Project Location Map:

- c) Installation Crew: Utility Contractor
- d) Expected Project Duration: 30 days
- e) Estimated Project Costs: \$200,000

2. Wood St.\Bean St.\Medill St. Watermain Replacement Project

a) Project Description:

This project will replace an existing 2" watermain with a new 6" watermain along with new hydrants, valves and service connections.

b) Project Location Map:

- c) Installation Crew: Utility Contractor
- d) Expected Project Duration: 120 days
- e) Estimated Project Cost: \$215,000

3. Harris Road – New Installation

a) Project Description:

This is an installation of a new 8" watermain on Harris Road. This section of the City does not have a watermain or hydrants and will provide access to water service for both residential and commercial properties.

b) Project Location Map:

- c) Installation Crew: City Public Works Crews
- d) Expected Project Duration: 45 days
- e) Estimated Project Cost: \$290,000

Funding Sources:

American Rescue Plan Act Funds – COVID Fiscal Relief Grant (CFRG)

Contact Information:

For more information about this project, please feel free to contact Eric Powell, PE, City Engineer\Director of Public Works and Utilities at the City of Marshall Public Works Department: 903-935-4489.
